REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Member
Roc Global Securities, LLC
New York, New York

Report on the Statement of Financial Condition

We have audited the accompanying statement of financial condition of Roc Global Securities, LLC (the "Company") as of December 31, 2013 and the related notes to the financial statement of financial condition.

Management's Responsibility for the Statement of Financial Condition

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the statement of financial condition that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the statement of financial condition based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statement of financial condition. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statement of financial condition, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the statement of financial condition in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statement of financial condition.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matters

The accompanying statement of financial condition has been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the statement of financial condition, the Company has a loss in 2013 and experienced decreases in working capital. These conditions raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The statement of financial condition does not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

Opinion

In our opinion, the statement of financial condition referred to above present fairly, in all material respects, the financial position of Roc Global Securities, LLC as of December 31, 2013, in conformity with accounting principles generally accepted in the United States of America.

Roc Global Securities, LLC

Notes to Statement of Financial Condition

Note 1 - Going Concern

Roc Global Securities, LLC (the "Company") statement of financial condition is prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company has incurred a net loss of approximately \$937,000 in Fiscal 2013 and a resulting decrease in working capital. The Company is in the process of closing on various transactions, which would result in revenues which would cover its operating costs for the next twelve months. Additionally, Roc Global Holdings LLC (the "Parent") can infuse additional capital into the Company.

There can be no assurance that the Company will be successful in closing these transactions or infuse additional capital in order to continue as a going concern. The statement of financial condition does not include any adjustments relating to the recoverability and classification of recorded assets or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. Accordingly, these factors raise substantial doubt as to the Company's ability to continue as a going concern.

Note 2 - Summary of Business and Significant Accounting Policies

Organization and Business Overview

The Company was organized pursuant to the laws of the State of Connecticut and is a wholly owned subsidiary of the Parent. The Company was approved by the Financial Industry Regulatory Authority ("FINRA") to commence business operations as a broker-dealer.

The Company is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and regulated by FINRA, formerly the National Association of Securities Dealers ("NASD"). The Company is in the businesses of originating and distributing and trading equity-linked securities to investors. The business activities include private placements, acting as an underwriter, participating as a selling group participant and as a broker or dealer selling corporate equity-linked securities and convertible securities.

Roc Global Securities, LLC

Notes to Statement of Financial Condition

Note 2 - Summary of Business and Significant Accounting Policies - continued

Basis of Accounting

The Company's statement of financial condition is prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America,

Investment Banking

Investment banking revenues are composed of origination, distribution, and advisory fees. Investment banking revenues are recognized when the Company's performance under the terms of the contractual arrangements is completed, which is typically at the closing of the transaction. In certain transactions the Company may be paid a non refundable retainer, which is recognized as revenue when the services for the transactions are provided.

Expenses associated with investment banking transactions are recorded in Other operating expenses, net of client reimbursements. If the contractual arrangement includes reimbursement of out-of-pocket expenses, such expenses are deferred and recognized as a receivable.

Principal Transactions

The Company executes transactions as an intermediary (riskless-principal) by serving as a trading counterparty to both the buyer and the seller in matching back-to-back trades, which are then settled through its clearing firm. Securities transactions and the related revenues and expenses are recorded on a trade-date basis.

Use of Estimates

The preparation of the statement of financial condition in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

Equipment

The Company expenses any computer and office equipment related costs that are individually \$500 and below.

Roc Global Securities, LLC

Notes to Statement of Financial Condition

Note 2 - Summary of Business and Significant Accounting Policies - continued

Income Taxes

The Company is organized as a limited liability company and is taxed as a partnership. Accordingly no provision has been made for federal and state income taxes. These taxes are the responsibility of the member who includes the Company's income and deductions in their income tax return.

The Company recognizes and measures its unrecognized tax benefits in accordance with ASC Topic No. 740, "Income Taxes". Under that guidance the Company assesses the likelihood, based on their technical merit that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available or when an event occurs that requires a change.

With few exceptions, the statute of limitations for the examination of the Company's tax returns is generally three years from the due date of the tax return including extensions. The tax years subject to examination include the years 2011 and forward.

Fair Value Measurements

ASC Topic No. 820, "Fair Value Measurements and Disclosures" ("ASC 820") defines fair value and establishes a framework for measuring fair value. The Company adopted the provisions codified within ASC 820 for financial assets and liabilities that are measured at fair value on a recurring basis. ASC 820 establishes fair value hierarchy levels that prioritize the inputs used in valuations determining fair value. Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 inputs are primarily quoted prices for similar assets or liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs based on the Company's own assumptions.

Advertising Costs

Advertising and branding related costs are expensed as incurred.

Roc Global Securities, LLC

Notes to Statement of Financial Condition

Note 3 - Payable to Clearing Broker

The Company clears its principal securities transactions, and its customer related transactions on a fully disclosed basis, through another broker-dealer (the "Clearing Broker"). The net amount payable to the Clearing Broker primarily relates to principal securities transactions and clearance related charges.

Note 4 - Related Parties

The Parent files a consolidated return for New York City unincorporated business taxes ("UBT"). The Parent charges the Company its share of UBT. There were no UBT related expenses for the year ended December 31, 2013.

Note 5 - Net Capital and Other Regulatory Requirements

As a broker-dealer, the Company is subject to the SEC regulations and operating guidelines, which require the Company to maintain a specific amount of net capital, as defined, and a ratio of aggregate indebtedness to net capital, as defined, not to exceed 8 to 1 for the first twelve months of FINRA membership and 15 to 1 thereafter. Net capital and the related ratio of aggregate indebtedness to net capital may fluctuate on a daily basis.

At December 31, 2013, the Company had net capital of \$368,699 which was \$363,699 in excess of its required minimum net capital of \$5,000. The Company's ratio of aggregate indebtedness to net capital ratio was 0.186 to 1 at December 31, 2013.

The Company is exempt from Rule 15c3-3 of the Securities and Exchange Commission since the Company does not carry security accounts for customers or perform custodial functions relating to customer securities. All accounts are on fully disclosed basis. Therefore, the Company is not required to make periodic computation of the reserve requirements for the exclusive benefit of customers.

Note 6 - Office Space

The Company leases its office facilities on a month to month basis under a space and service agreement ("Space Agreement"). The Company is required to provide 45 days' notice in order to terminate the Space Agreement.

Pursuant to the terms of the Space Agreement, on each one year anniversary date of the commencement of the Space Agreement the monthly base rent can be increased to a negotiated and mutually agreed upon base rent.

Roc Global Securities, LLC

Notes to Statement of Financial Condition

Note 7 - Off-Balance Sheet Risk and Concentrations of Credit Risk

The Company has a potential concentration of credit risk in that it maintains cash deposits with one major financial institution. At times, the amount on deposit at this institution may exceed the maximum balance insured by the Federal Deposit Insurance Corporation. Management has determined that the concentration subjects the Company to minimal risk only. At December 31, 2013, there were no uninsured amounts.

The Company has entered into a clearance agreement (the "Clearance Agreement") with one major financial institution. The customer securities transactions of the Company are cleared on a fully disclosed basis by the Clearing Broker pursuant to the Clearance Agreement. While the Clearing Broker maintains the responsibility of margining such accounts and determining adequate collateralization, the Company has agreed to indemnify the Clearing Broker for certain losses that the Clearing Broker may sustain from the customer accounts introduced by the Company. Any debit balances relate to customer delivery-versus-payment transactions and, in the normal course of business, would be settled by the Clearing Broker subsequent to year end. At December 31, 2013, there were no customer debit balances maintained by the Clearing Broker.

As part of the Clearance Agreement, the Company made a cash deposit of \$200,000 with this Clearing Broker. In addition, the sole owner of the Parent has guaranteed any indebtedness by the Company to the Clearing Broker that is not satisfied by the deposit up to a maximum of \$800,000.

The Company's customers and counterparties are primarily institutional and consist of banks, hedge funds, mutual funds, pension plans, brokers and dealers, and other financial institutions.

Due to the nature of the Company's business, large transactions with customers will occur each year. Transactions with one customer accounted for 70% of the revenues for the year ended December 31, 2013.

Note 8 - Subsequent Events

The Company has evaluated subsequent events from the balance sheet date through February 4, 2014, the date the statement of financial condition was available to be issued, and has determined there are no events to disclose.
